Summary

IT professional with 3+ years of experience in technical support, troubleshooting, Linux/Windows administration, SQL, and AWS/Oracle/Azure. Focused on root cause analysis and fast issue resolution.

WORK EXPERIENCE & RELATED EXPERIENCE

Technical Support Analyst | July 2023 – Present | 3 Years | Silverware POS, Markham, Ontario

- Troubleshoot and resolved our business client's servers, hardware, databases, and network issues to maintain 99% uptime and smooth operations.
- Coordinated with vendors to resolve API, payment processing, and hardware problems (RMA process).
- Performed backups and delivered reliable 24/7 support including weekend, holidays, and on-call shifts.
- Resolved 10,000+ tickets with a 14-minute average resolution time, consistently exceeding KPI targets and improving client satisfaction.
- Delivered software training, added users, reset passwords, and supported knowledge base development.
- Triage issues by classifying priority levels, documenting defects, and escalating to appropriate teams.

Computer Technician | Mar 2023 – July 2023 | Internship | Renewed Computer Technology Mississauga

- Troubleshoot and repaired hardware and software issues for desktops and laptops.
- Configure PC hardware and deploy computers by imaging Windows and updating drivers.
- Documented and managing thousands of computers, servers, network equipment, and parts.

Coding Lead Instructor & Curriculum Developer | June 2021

– March 2023 | 2 Years | Code Ninjas, Vogel Richmond Hill, ON

- Supervised a small team of 2-6 and report on daily operational activities to business owners.
- Handle customer inquiries and promote/sell the business's educational services.
- Managed computer inventory and ensured all systems were updated and functional.
- Taught students how to make JavaScript games, Unity (C#) games, robots, and computers using IDE's software (Unity, Eclipse, Visual etc.) and hardware parts (motherboards, circuits, etc.).

Academic Peer Support Assistant | May 2020 – May

2022 | 2 Years | York University, Vaughan, Ontario

- Facilitated study sessions for students by analyzing, designing, developing, and testing Java programs.
- Students who took part in my study sessions improved by a whole grade letter in university courses.

Projects

Portfolio Web Cloud Project

- Built and deployed my Tutoring business website (<https://zenonzeni.ca>) on a Linux based cloud instance.

Web Cloud Search Engine (Java, JSP, Tomcat deployed on Windows Machine)

- Built and deployed a **JSP-based** search engine that indexes an XML dataset and returns **keyword-matched** results. Implemented XML parsing, search logic, and full Tomcat deployment.
- Project Link: <https://zenonzeni.com/ITEC4020A3/Search.jsp>

EDUCATION

Honors Bachelor Information Technology | 2018– 2022 | York University

Ontario Secondary School Diploma | 2018 | 80%+
