Summary

IT professional with 3+ years' experience in technical support, system troubleshooting, Linux/windows administration, SQL, AWS/Oracle/Azure, and scripting. Focused on root cause analysis, and fast issue resolution.

WORK EXPERIENCE & RELATED EXPERIENCE

Technical Support Analyst | July 2023 – Present | 3 Years |
Silverware POS, Markham, Ontario

- Troubleshoot our business client's servers, hardware, databases, and network issues to maintain operations.
- Coordinate with vendors to resolve API, payment processing, and hardware problems (RMA process).
- Performed data backups and delivered reliable 24/7 technical support with weekend, holiday and on call.
- Resolved 10,000+ tickets with a 14-minute average resolution time, consistently exceeding KPI targets and improving client satisfaction.
- Delivered software training and supported knowledge base development.
- Triage by classifying priority issues, documented defects, and escalated issues to appropriate teams.

Computer Technician | Mar 2023 – July 2023 |
Internship | Renewed Computer Technology Mississauga

- Troubleshoot and repair hardware and software issues for desktops and laptops.
- Configure PC hardware and deploy computers by imaging window operating systems and updating drivers.
- Document and manage inventory of computers, servers, network equipment, and parts

Coding Lead Instructor & Curriculum Developer | June 2021 –
March 2023 | 2 Years | Code Ninjas, Vogel Richmond Hill, ON

- Supervise a small team of 2 to 6 and report on daily operational activities to business owners.
- Handle customer inquiries and promote/sell the business's educational services.
- Managed computer inventory and ensured all systems were updated and functional.
- Teach how to make JavaScript games, Roblox games, Unity (C#) games, robots, and computers using IDE's/GDPs software (Unity, Eclipse, Visual etc.) and hardware parts (motherboards, circuits, etc.).

Academic Peer Support Assistant | May 2020 – May
2022 | 2 Years | York University, Vaughan, Ontario

- Facilitate study sessions for students by analyzing, designing, developing, and testing java programs.
- Students who took part in my study sessions do a whole grade letter better in university courses.

Projects

Portfolio Web Cloud Project

My Tutoring Business Website <https://zenonzeni.ca>.

Web Cloud Search Engine (Java, JSP, Tomcat deployed on Linux Virtual Machine)

Built and deployed a JSP-based search engine that indexes an XML dataset and returns keyword-matched results.

Implemented XML parsing, search logic, and full Tomcat deployment.
